First I downloaded the packet capture and loaded it into Wireshark.

I went to follow the UDP stream to see if I could find anything of use. I went through each stream trying to find the flag. At stream 6 it displayed the text: `picoCTF{StaT31355_636f6e6e}`

I then submitted the flag I found on UDP stream 6 and it was correct!

Hurray! You earned 150 points.
